

VISION THAT MAKES
DIFFERENCE.

OUR LAW FIRM WAS ESTABLISHED IN 1990 TO OFFER FIRST-CLASS LEGAL SERVICES, WITH EFFICIENCY, SECURITY, AND RELIABILITY.

Today we are one of the leading law firms in Brazil, highly respected in the demanding international scenario.

We specialize in the main Corporate Law areas, providing services to national and international clients of all sizes and economic sectors. Since the onset, we are acknowledged in the market as one of the leading firms in the tax area by our clients, peers and the most renowned international publications. Our excellence in the tax segment was extended to our other practice areas, which enjoy equal recognition and reputation.

We believe that our skilled work and our close relationship with our clients adds value to their business. We believe that Law is not a commodity. The provision of legal services is strategic and requires unconditional dedication, continual education and unrestricted respect

of ethics. Developing safer solutions in an environment surrounded by legal insecurity: this is the challenge posed and that we took on.

We have an in-depth knowledge of our clients, their business and goals. We believe that our mission is to help clients grow, optimize resources, seek creative alternatives for complex problems, and carry on the best business in a dynamic world, full of opportunities and challenges.

Our team is comprised of professionals with superior technical capacity, with different academic qualifications, who work together to offer more efficient solutions.

We are headquartered in São Paulo, and we also have offices in Rio de Janeiro and Brasília. We rely on the work of correspondents throughout Brazil and maintain productive relationships with the most distinguished international firms.

Thanks to our considerable international experience, we founded and are a board member of the Latin American Tax and Legal Network - LATAXNET, a network of first-class law firms that allows us to develop and monitor projects in all Latin American countries.

Our firm is also the Brazilian member of the international network WTS Global, headquartered in Germany. Focused on tax-related issues and recognized as one of the global specialists in the tax area, WTS Global operates in more than 100 countries.

OUR FIRM IS FORMED BY A UNIQUE TEAM OF LAWYERS DEDICATED TO OUR CLIENTS' SUCCESS. MANY OF THESE LAWYERS WORK AT MACHADO ASSOCIADOS SINCE ITS ESTABLISHMENT.

OUR HISTORY

OUR TEAM

WE BELIEVE THAT HAVING THE BEST TEAM IS CRUCIAL.

Our professionals are recognized for their technical skills and specialization in the respective areas of expertise, working actively together to accomplish our clients' goals.

We train and maintain our team up-to-date. We constantly search and shape new talents, always with the purpose of ensuring the highest level possible of trust, security, and credibility from our clients.

Knowledge is not a stationary asset. Constant update is key for the development of unique solutions. We incessantly invest in the development of our team, by promoting continuing education, either in Brazil or overseas, and interchange with firms in different countries.

Our technical team was carefully formed to draw together outstanding lawyers that are graduated in areas related to the Corporate Law, such as Accounting, Business Administration

and Economy. Such formation, along with the experience gained by many of our professionals working in big audit firms, gives us an exceptional ability to handle financial and accounting matters, assess and anticipate risks, and identify and offer creative, precise and innovative solutions.

Our goal is to positively surprise our clients and deliver results that exceed expectations in a sophisticated, distinctive and efficient manner.
